## Professional Summary

Results-driven Software Engineer with 5+ years of experience in full-stack development, specializing in Python, Java, and JavaScript. Adept at designing scalable web applications, optimizing system performance, and leading cross-functional teams. Passionate about solving complex problems and implementing innovative solutions.

## Education

University of California, Berkeley – Berkeley, CA

Bachelor of Science in Computer Science | 2014 – 2018

- GPA: 3.85/4.0
- Relevant Courses: Data Structures & Algorithms, Machine Learning, Cloud Computing, Database Systems

## Work Experience

**Software Engineer | Google** – Mountain View, CA (2021 – Present)

- Developed and deployed scalable microservices using Python (Flask) and Java (Spring Boot), improving system performance by 30%.
- Led a team of 5 engineers to refactor legacy code, reducing technical debt by 40%.
- Integrated third-party APIs to enhance user experience, supporting over 10 million users.

**Software Developer | Microsoft** – Seattle, WA (2018 – 2021)

- Designed and implemented RESTful APIs for enterprise applications, handling over 500K requests per day.
- Collaborated with product teams to develop new features, increasing customer engagement by 25%.
- Optimized SQL queries, reducing database response time by 50%.

## Projects

**AI-Powered Resume Scanner** (Personal Project)

- Developed an NLP-based tool using Python and OpenAI API to extract key skills and experiences from resumes.
- Implemented a user-friendly web interface using React.js and Flask.
- Achieved an accuracy rate of 92% in classifying resume sections.

**E-commerce Website Performance Optimization** (Microsoft)

- Led a project to optimize web page loading speed, reducing average load time from 4.5s to 1.8s.
- Utilized caching strategies and lazy loading to improve efficiency.

## Skills

- Programming: Python, Java, JavaScript, SQL, C++
- Frameworks & Tools: Flask, Spring Boot, React.js, Docker, Kubernetes
- Databases: MySQL, PostgreSQL, MongoDB
- Cloud Services: AWS, Google Cloud, Azure
- Version Control: Git, GitHub, Bitbucket

**Certifications**

- AWS Certified Solutions Architect – Associate (2022)
- Google Cloud Professional Cloud Developer (2023)

**Self-Evaluation**

Highly motivated and detail-oriented engineer with a strong problem-solving mindset.

Passionate about AI, cloud computing, and software architecture. Enjoys working in dynamic environments and continuously learning new technologies.
